

# DECLARATION OF CONFORMITY

with Regulation (EU) 2024/1242 (PPWR - Packaging and Packaging Waste Regulation)

We hereby declare that the packaging products listed below fulfill the requirements of the Regulation of the European Parliament and of the Council on packaging and packaging waste (PPWR).

Product Name	Material Type	Recycled Content (%)	Recyclability Status
LLDPE Stretch Film	Polyethylene (PE-LD)	From 0% to 100%	Yes
Shrink Film	Polyethylene (PE-LD)	From 0% to 100%	Yes

## 1. Recycled Content in Plastic Packaging

We declare that the plastic packaging placed on the market complies with the minimum percentage targets for recycled content recovered from post-consumer plastic waste, in accordance with Article 7 of the PPWR Regulation.

## 2. Design for Recycling (DfR)

The packaging products have been designed to enable efficient and high-quality mechanical recycling. The material composition does not contain any substances that could hinder or negatively affect the recycling processes or secondary raw material recovery.

## 3. Restriction of Hazardous Substances

The sum of concentration levels of lead, cadmium, mercury, and hexavalent chromium present in the packaging or packaging components does not exceed 100 mg/kg, complying with the applicable environmental protection and safety standards.

## 4. Packaging Minimization

The weight, volume, and thickness of the packaging have been limited to the minimum necessary amount required to maintain product safety, hygiene, transport protection, and functionality, in accordance with performance criteria defined in Annex IV of the PPWR.
